Storms - Mexico WARNING

Storm · Pacific Disaster Center (analyst-issued) · updated 2026-09-29 16:36 EDT

127,000,000 people exposed

Started 2026-07-28 17:19 EDT (63 days, 1 h ago). Storms have been reported in Mexico by the National Meteorological Service (SMN). Reports indicate intense rains with isolated torrential downpours (150 to 250 mm) in Sonora (central, southern and coastal) and Michoacán (coastal), very heavy rains with isolated intense downpours (75 to 150 mm) in Si... DisasterAWARE estimates 127,000,000 people exposed and \$4.6T in capital.

- No measurable change since Sep 28, 6:55 PM EDT.

hazard / exposure area alert area Meridian site, in hazard area Meridian, nearby

FACILITY	TYPE	LOCATION	STATUS	DISTANCE
El Paso metro				2.7 mi outside
Meridian Market – El Paso (Southeast) NEARBY	Neighborhood	El Paso, TX	Active	2.7 mi outside
Meridian Market – El Paso (Downtown) NEARBY	Neighborhood	El Paso, TX	Active	3.6 mi outside

Distances are to the nearest edge of the hazard perimeter where one is published (fire perimeter / flood exposure area), otherwise to the edge of the alert area. "In perimeter" means the facility footprint point falls inside the hazard geometry itself. Facility coordinates are single points, so a large installation may be partly affected even when its point sits outside the area.
